

Paper plane [A4 size 4 pages]

A wide range of different origami has been enjoyed in Japan since ancient times.

Take your "Paper plane" out to an open space to fly it.

The letters in blue circles indicate the fold lines. They are also shown on the practice sheet.

Start

Continue on to page 2.

Flatten out the folds.

Continued
from
page 1.

Turn over.

Flatten out the folds.

Fold the upper triangle
down along line G.

Fold in half along line H.

Flatten out the folds.

Turn the paper around.

Fold the opposite side
in the same way along line I,
then flatten out the edges.

Turn over.

Fold the opposite side
in the same way along line J,
then flatten out the edges
and open out the wings.
